**100% anodised
aluminium front rail
and arms**

Peace of mind performance

**Durable
modern style**

Sleek and linear design, ideally
suited to all types of applications

**Optimal
pitch adjustment**

Ensure perfect
awning placement

Sun control made easy

No matter the time of day, weather
or location, a Solto® Pivot Arm awning
is the ultimate window shade solution.

With its 160° arc of movement, the Solto Pivot® Arm
awning easily adjusts so you can filter the light but
keep the airflow

With a heavy duty internal spring inside a fully
extruded aluminium sleeve, the Solto Pivot® Arm
awning is designed to perform.

Be it the harshest summers or the coldest of winters,
the Solto® Pivot Arm awning is the versatile sun
control system.

Adaptability

Paired with the latest technology, whether a remote
control handset, your own mobile phone or voice
activation via wireless hub technology, motorisation
is the ultimate upgrade to your Solto® Pivot Arm awning.
